University of Engineering & Technology, Lahore.

# Editorial

We are trying our best to revive this prestigious journal 'Lahore Museum Bulletin' on regular basis as in the past. There are very few journals on Archaeology, Museology, Art & Architecture, numismatics in the country which are recognized by Higher Education Commission and publication of certain number of articles in HEC recognized journal is a basic need for getting Ph.D. Degree.

This is the age of specialization and it is our duty to facilitate in producing specialists in these neglected fields. We need the support of scholars for contribution of new research in relevant fields. We are thankful for financial support by HEC (Higher Education Commission) and hope that it will continue in future too.

This volume presents new researches in the field of numismatics, Gandhara stuccos, post Gandhara iconography, Islamic culture, and its impact on European renaissance, Islamic manuscripts, history and conservation.

We heartily thank to all the members of the Editorial Board for going through these articles for their evaluation and improvement. Readers' comments for suggestions and improvement of the journal are very welcome.
